

Seam Finish: Turned & Stitched

This seam finish can also be referred to as Machine Neatening

Method:

- Stitch a 1.5cm (5/8") seam
- Press the seam open
- Stitch approximately ¼" from the raw edges (***Optional foot to use = ¼" seam foot**)
- Fold and press the raw edge under (towards the wrong side of the fabric) using the previous stitching line as a guide
- From the right side and only stitching through the seam allowance edge stitch the folded edges (***Optional foot to use = blind hem foot with the needle position adjusted through the stitch width**)
